

Occupational health and safety are essential elements of all activities of the organization

We maintain a high level of occupational health and safety at all levels of our organization. We prevent accidents and incidents through preventive measures and internal processes within the organization. We believe that all accidents and incidents can be prevented.

- We preempt and prevent accidents and incidents by mapping, analyzing, mitigating and / or eliminating risks in our operations and operating environment.
- We continually improve our OHS processes, anticipate the effects of changes, and eliminate or correct any defects we detect.
- We monitor and track our occupational health and safety (OHS) activities and their progress against our goals through various metrics and the Quentic system.
- We orientate all our employees and partners towards healthy and safe work practices and activities in the workplace, in accordance with good practice.
- We maintain and promote the well-being and work ability of our staff through comprehensive occupational health care and the well-being of the work community.
- In all our activities, we strive for environmentally sustainable and efficient use of energy and natural resources.
- We commit to personal accountability in matters relating to work healthy and safely.
- We listen to our employees and business partners and encourage them to take initiatives and make observations.
- We commit to consulting and involving employees and their representatives.
- Our operations comply with all legal and customer requirements, and requirements set forth by ISO 45001: 2018
